

**British Car Parts Available
July 2026**

Items: From longtime British car enthusiasts

Fits:

MGB, TR3, TR4, TR6, Sunbeam Alpine and several other LBCs

Summary: Below is the information that I provided to the Milwaukee MG3 and Wisconsin A-H Clubs regarding the parts. This may help you frame up your correspondence to the Fox Cities Brits:

I've been asked by Dione Anderson to help her find new owners for a cache of car parts that she has for LBCs. Dione and her husband, Dave were long time members of several British car clubs around Milwaukee, including the MG3 Club, Wisconsin Triumphs and the Austin-Healey Club. Dave had an MGB, TR3, TR4, TR6, Sunbeam Alpine and several other LBCs over the years. Dave passed a couple of years back. He and Dione were able to disperse his collection of 9 LBC, but a large collection of parts remain.

This week, Dione and I went through the collection of parts. She had separated them into clusters that go to MGs, Triumphs, Healeys, and Sunbeams. I took 40 pictures of the various clusters, some of which are included with this email.

Dione is not looking to make big money selling these parts - more interested in them getting to new owners that will put them to good use. So reasonable offers are of interest. The collection consists of some new parts (carpet kits, convertible tops, etc.), but are mostly items that Dave felt had value and would be usable maintaining his car collection (fenders, doors, gauges, carbs, etc.)

Please pass this email on to your LBC connections. Have interested parties contact me at 414-687-8447 and I will get them in touch with Dione.

THANK YOU SO MUCH FOR YOUR TIME AND SUPPORT!
