

British Car Available

Year: 1974

Make: Triumph

Model: TR6

Summary: She's a great little car and runs well. I feel I don't get enough time to drive it and think it would do well in the hands of someone who got out more. The car is well maintained and I have the records/list of work done since I bought it in 2017. The history I was given is that it was stored for most of its time by the original owner. I bought it from his best friend who inherited it from him and couldn't comfortably drive it. My husband always owned a Tr6 and eventually I wanted my own so I found this car and have absolutely loved my time driving. I would be happy if it could find a place with someone who loves and knows how to care for one of these fun little British beauties.

1974 Tr6

original paint

6 cylinder

base model

4speed manual

odometer stopped at 46099(I can't certify when it stopped but I have owned it since 2017 and would say I average 200 miles per summer.

I had the carpet and seats redone but nothing to the dash.

New tires in 2024

top is original

horn works

Asking \$10,500
